SIMON GRAVELINE

LEAD GAME DESIGNER

514-709-1377
Saint-Hubert, Qc
sim.graveline@gmail.com
LinkedIn · Portfolio

With an history of working on AAA titles such as Rainbow 6: Patriots, Assassin's Creed: Brotherhood and G.I. Joe: Snake Eyes, I'm currently seeking a systems design role or leadership position. On top of being highly creative, I excel at seizing all stakes of a project and proposing solutions aligned with its priorities, company goals and team motivation. As a hobby, I develop mobile games to improve my craft in Unity and game monetization.

EXPERIENCE

System Game Designer, Solo Developer 2026-present
Grave Games, Longueuil
- → Designing systems and balancing gameplay
- → Coding gameplay and interfaces
- → Creating menu art and UI visual elements

Level Designer, Freelance 2024
Studio MDHR, Oakville
- → Created levels based on tilesets and objects' themes
- → Balanced gameplay for a smooth game progression

Game Designer, Freelance 2023-204
Atomic Arcade (Wizards of the Coast), Raleigh
- → Designed enemy behaviours and tools for encounter systems
- → Scoped the vertical slice by breaking down its narrative into a sequence of game and story beats

Lead Level Designer 2018–2022
Tribute Games, Montreal
- → Created levels with a cohesive narrative structure
- → Balanced gameplay for a smooth game progression
- → Tweaked enemies to work with level constraints

Co-Founder, Lead Game / Level Designer 2013–2018
Grave Danger Games, Montreal
- → Designed gameplay systems, menus and interfaces
- → Created levels and balanced the game progression
- → Supported code and art

Lead Game Designer 2007–2013
Ubisoft, Montreal
- → Designed gameplay systems, menus and interfaces
- → Designed missions, quests, rewards and feedback loops
- → Led game, level and narrative teams

Unity · GameMaker · GitHub · Perforce · Confluence · Jira · Miro · Notion · Trello · Figma · Canva · Aseprite · MS Office · Google Suite · LDtk · Tiled · VS Code ·

SOFT SKILLS
Organization · Problem Solving · Communication · Quick Learning · Autonomy · Multitasking ·

Lead Game / Level Designer 2004–2007

DC Studios, Montreal

→ Designed gameplay systems, menus and interfaces
→ Created levels and balanced the game progression
→ Led game, level, narrative and test teams

OTHER EXPERIENCE

Teacher 2013-2018

Isart Digital, Montreal

In parallel to running my indie studio Grave Danger Games and developing our game, I was teaching design, prototyping and game production. I was also the head of the game design program; maintaining the program and hiring teachers.
